

VISHAL SHARMA

Data Analytics | SQL · Python · Power BI · Data Visualization

Bengaluru, Karnataka | +91 94499 81320 | sharmavishal2478@gmail.com | linkedin.com/in/vishal089 | github.com/vishalsharmacode

PROFESSIONAL SUMMARY

Detail-oriented and intellectually curious Computer Science (Data Science) graduate with hands-on experience in SQL, Python, and Business Intelligence tools (Power BI, Tableau) for data analysis, data visualization, statistical analysis, and actionable insight generation. Quick learner, comfortable picking up new tools and technologies, with strong problem-solving skills for ambiguous, real-world data challenges. Familiar with Databricks, data modeling, and governed data platforms, and experienced applying Generative AI tools (Claude, Copilot) to accelerate analysis and reporting. Strong communicator and collaborator, adept at synthesizing data into clear findings for both technical and business stakeholders in fast-paced environments.

EDUCATION

B.E. Computer Science & Engineering (Data Science) — VTU <i>K N S Institute of Technology, Bengaluru CGPA: 8.22</i>	2022 – 2026
PUC (PCMC) — Sindhi PU College, Bengaluru <i>Percentage: 77.77%</i>	2020 – 2022
SSLC — Royal Academy Public School, Bengaluru <i>Percentage: 86.88%</i>	2020

TECHNICAL SKILLS

- Programming & Analysis: SQL · Python (Pandas, NumPy, Matplotlib) · Statistical Analysis · Exploratory Data Analysis (EDA)
- BI & Visualization: Power BI · Tableau · MS Excel (Pivot Tables, VLOOKUP/XLOOKUP, Data Cleaning)
- Data Platforms: Databricks (familiar)
- GenAI & Agentic Tools: Claude · Microsoft Copilot — applied to accelerate analysis, insight summarization
- Data Practices: Data Validation & Quality · ETL Concepts · Data Integration · Data Processing · Data Cleaning
- Version Control: Git · GitHub · VS Code

INTERNSHIP EXPERIENCE

Android App Development Intern (GenAI) — Mindmatrix, CL Infotech Pvt. Ltd. <i>Bengaluru Applied Generative AI tools to accelerate development and data workflows</i>	Feb 2026 – May 2026
- Android application development using Kotlin and Jetpack Compose - Hands-on experience with Android Studio, Google Cloud Labs, and Google AI Studio to explore GenAI capabilities in application development - UI/UX design, application prototyping, feature development, followed by debugging and iterative enhancements - Project-based learning involving Firebase integration, testing, and standard Android development workflows	

PROJECT EXPERIENCE

Supply Chain Analysis — Data Analytics Project <i>Tools: SQL · Python · Excel · Power BI</i>	2025
- Analyzed end-to-end supply chain data to identify bottlenecks, forecast demand, and optimize inventory; performed data validation and quality reviews following established SOPs, ensuring 99–100% accuracy across reporting cycles - Built interactive Power BI and Tableau dashboards visualizing KPIs such as order fulfillment rate, lead time, and supplier performance, synthesizing findings into clear, actionable recommendations for stakeholders	
House Price Prediction Machine Learning & Analytics Project <i>Tools: Python · Scikit-learn · Pandas · Matplotlib · Excel</i>	2024
- Cleaned and validated raw housing datasets using Python and Excel; identified anomalies, handled missing values, and engineered features (location scores, property age, amenity flags) to improve predictive model accuracy. - Built and tuned regression models (Linear Regression, Random Forest) achieving strong predictive performance; used EDA and data visualizations (Matplotlib, Seaborn) to uncover key price drivers across property attributes.
